

# Talking with Professors

## Start a Relationship Early

- "I want to learn as much as I can in your class. What can I do to succeed?"
- "I want to be sure I start off with solid work in your class. Can I come see you before an assignment is due to make sure I'm on the right track?"

## Seek Feedback after Graded Work

- "I reviewed my work. Can we go over what I did wrong so I understand what I should do differently next time?"
- "Can we be sure to talk about how this low grade will affect my progress in the course? I want to be sure to make the improvements I need to raise my grade."

## Talk about Accommodations

- "Hi Professor \_\_\_\_\_, my name is \_\_\_\_\_ and I attached my accommodation letter. Is there a time this week you would be available to talk about my accommodations in your class?"
